

Provence garden wall-fountain with a double basin in stone

This large stone wall fountain was handcrafted in Provence using authentic antique reclaimed stones. Hand-made, this garden fountain has two stone basins in stone : one smaller basin, a monolithic sink with 2 bucket-rest bars, and the other fone, the large basin, for the fountain itself. The pediment is embellished with an old wrought iron water outlet and an antique metal faucet. The curbstones and cornices are thick and finely molded.
