Large wall fountains

Beautiful wall fountain in weathered stone with 18th century corbels

This large ornamental fountain in weathered stone is a unique hand-crafted creation made of authentic reclaimed stones. This wall fountain features a large yet shallow basin made of large stone slabs and thick rounded copings. The rather narrow pediment is flanked by two stunning hand-sculpted corbels dating from the 18th century. The large overhanging capital in stone is flat and very finely hand-molded.
