Square garden basin with central ball crafted in natural stone

This small garden fountain is a square basin handcrafted in our Provence stone cutting workshop using natural limestone (frost resistant). This basin features a small chamfered base, straight stone pieces and wide and flat molded copings. The central piece is made of a massive stone ball resting on a cubic stone base. Both are drilled throughout their entire height to allow the water to come out.

Height	80 cm
Width	137 cm
Depth	137 cm

- Basin's height : 55 cm - Central : L 30cm x D 30cm x H 80 cm - Ball : Ø 30 cm

Price

4110 €
