Garden pond with large central ball in patinated natural stone

This garden fountain in stone is an elegant water basin hand-carved in Provence in natural limestone beautifully weathered. It features large and thick molded copings (30cm wide x 12cm thick) which rest on thick and straight massive blocks of stone forming the square basin. The central is made of a molded base and a large stone ball of 50cm in diameter. These 2 elements are drilled throughout their whole height to allow the water to flow from the top of the ball.

Height	105 cm
Width	210 cm
Depth	210 cm

- BASIN: L 200cm x D 200cm at its base x H 52 cm - BASE: L 60cm x D 60cm x H 105 cm - BALL: Diameter 50 cm

Price

5050 €
