Wall fountain with low molded basin and slender pediment in old stone

This charming wall fountain hand-crafted in authentic old stones is a unique fountain featuring a shallow rectangular basin made of thick and beautifully molded reclaimed stone and a rather tall and slender pediment enhanced by side sculpted corbels and topped by a thin overhanging molded cornice. Sold with a wrought iron water spout. The basin stones display a beautiful natural patina with moss and lichen.

Height	182 cm
Width	225 cm
Depth	335 cm

- Basin's height : 30 cm

Price

5670 €
