

**4-meter wide garden wall fountain in  
weathered stone with 3 water spouts \*\* SOLD**

This large garden fountain is a wall fountain hand-crafted in Provence in beautifully weathered natural stones. This fountain features a wide and deep rectangular basin made of massive basement stones that rest on a thick chamfered base. The thick copings are nicely molded. The pediment, which extends over the entire length of the basin, is adorned with a beautiful overhanging cornice and flanked by a pair of corbels. An opulent hand-sculpted mold highlights the 3 antique wrought iron water spouts.

Height 177 cm  
Width 405 cm  
Depth 137 cm

- Basin's height : 82cm
