

Petite wall fountain in reclaimed weathered-by-time molded stones

This small-size garden water feature is a wall fountain crafted with beautiful reclaimed weathered-by-time stones. Its originality comes from its fairly high basin made of thick stones nicely topped by molded copings, and its narrow pediment enhanced by a molded plastron in relief and a beautiful cornice carved by hand with fine moldings. This unique fountain is sold with its 2 bucket rest bars and its old wrought iron water spout.

Height 122 cm

Width 120 cm

Depth 75 cm

- Basin's height : 53 cm

Price
3190 €
