

Small water feature in weathered stones : a wall fountain with a massive trough

This charming small garden fountain in weathered stones would be an ideal wall fountain to be fitted in small spaces. It is easy to install thanks to its monolithic trough which rests on a massive chamfered base. The trough is fitted with a pair of metallic bucket rest bars. The rounded single-block pediment is fitted with an old wrought iron water outlet. Unique model.

Height 125 cm
Width 56 cm
Depth 81 cm

- Base : L 56cm x D 81cm x H 12cm (approximately) -
Trough : L 50cm x D 79cm x H 35cm (approximately) -
Pediment : L 41cm x D 20cm

Price
1600 €
