

Large garden wall fountain in reclaimed weathered stones

This large wall fountain is a unique garden water feature handcrafted in Provence with authentic reclaimed old stones beautifully weathered by time. It is made of a high fitted basin with thick and wide molded copings and of a tall pediment animated with corbels and a recessed plastron highlighting the hand-sculpted rosace and the antique wrought iron water spout. The wide cornice is finely molded and carved in a pointy shape.

Height 190 cm

Width 235 cm

Depth 153 cm

- Basin's height : 50 cm

Price

5500 €
