Large wall fountains

Large wall fountain with pediment handsculpted with a pair of angels with trumpet ** SOLD

Pierre - Matériaux Al

This limestone fountain, a unique artisanal water feature, offers a low rectangular basin with thick sloping wash-house-style coping on 3 sides and a magnificent pediment in weathered stones sculpted with a decoration of 2 seated angels holding a trumpet. In the center of the pediment, a stone spillway pours the water into a second smaller basin. The water then flows by overflowing into the main basin. The beautiful molded cornice is decorated with 2 sculpted stone bearded man's heads.
