

Large wall fountain in aged and patinated stone with two water spouts

This large wall fountain is a unique water feature hand-crafted in Provence with weathered natural stones. The wide and tall rectangular basin is formed by large basement stones and beautiful and thick sloping coping stones reminiscent of a wash-house. It is fitted with 2 pairs of metallic bucket-rest bars. The pediment is adorned with a molded panel, side corbels and an attractive dripstone cornice. This fountain is sold with 2 antique wrought-iron water spouts.

Height 165 cm

Width 260 cm

Depth 150 cm

- Basin's height : 67cm (exterior) / 63cm (interior) -
Coping width : 35cm

Price

7500 €
