Wall fountain in weathered old stones with sculpted pediment and wash-house basin

This wall fountain, crafted from beautifully worn-and-weathered-by time reclaimed old stones, is a garden fountain full of yesteryear's Provence's charm. This unique water feature is sold with an antique wrought iron water spout and a metallic bucket-rest bar. It features a rather low rectangular basin featuring massive and thick wash-house-like copings and a narrow pediment sculpted with moldings and flanked by side corbels.
