Antique wrought-iron gates

Wide antique gate with two semi-openwork doors in green-painted wrought iron

This antique gate of over 4 meters wide is a solid wrought iron semi-openwork double-door gate painted in a nice bottle-green color. This unique model is sold as is with its four mounting hinges. It requires some slight renovation. The latch works, but the lock will require changing. The sheeted metallic base is decorated with a diamond centered in a raised rectangular molded frame. The thick round iron bars forming the upper section end with nicely hand-forged fleur-de-lis. Riveted and welded construction. Beautiful rust patina on the surface.

Height	224 cm
Width	420 cm
